INTRODUCING JOSEPH PISANI

Joseph Pisani is a master of color, motion and expression. Once again, this talented artist has created these inspired works of art in celebration and commemoration of the tournament that will be sold at our Auction.

Joseph was born into an artistic family in New York. He was taught to draw and paint by his grandmother at 7 and by age 13 he was painting his mother's designs with her on clothing.

After completing his university studies in the USA, he traveled extensively throughout the USA and then on to Europe, the Middle East and Asia.

Joseph has lived in Zurich since 1999. He has been featured on Kurt Aeschbacher's show "showcasing young, new talent in Switzerland", is currently exhibiting at the Kunstgalerie Bachlechner in Bergdietlikon and among his many exhibitions, his paintings can be seen at the Geneva Group International's d'Artis Gallery in Zurich and at a permanent exhibition at the Zurich America Center in Zurich.
